

Page Layout

Section one is portrait, has a page border, uses lower-case roman page numbers, and flows in two columns. Sublime converts files. This paragraph exists so that the paragraph has more than one line when laid out on a page, which matters for line spacing, indents, and column tests. It says nothing else of interest.

This paragraph follows a column break, so it opens the second column. Sublime converts files. This paragraph exists so that the paragraph has more than one line when laid out on a page, which matters for line spacing, indents, and column tests. It says nothing else of interest.

Landscape

Section two is landscape and single column. Sublime converts files. This paragraph exists so that the paragraph has more than one line when laid out on a page, which matters for line spacing, indents, and column tests. It says nothing else of interest.
